- 4、Press the control button for 2seconds, the led eyelash will be off.

IV. Features

1. Plug-in construction, Various colors are available, easy to change the color of led eyelash.
2. Hair pin design, the lamp can be fixed on hair or clothes, So it is suitable for both man and lady.
3. plastics box packing makes it convenient to take.
4. White silicon case protect the control panel well and looks high class.
5. Various change modes, totally 12modes

V. Tips

1. We adopt the 3.0V button battery with low current, there is no risk of electric leakage and has no harm to users.
2. We use the low CCT LED chips with big beam angle 120degree. Thus, the light will not shine the eyes when using it.
